**Docket Number (Optional)**  
344742000530

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,961,672, granted October 5, 1999, and for which a reissue patent is sought on the invention entitled **STABILIZED ANODE FOR LITHIUM-POLYMER BATTERIES** the specification of which

☒ is attached hereto.

☐ was filed on \* as reissue application number \* and was amended on \*.

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

As one instance of claiming less than I had a right to claim, claim 1 as issued required the socket portion "interior volume expandable and contractable." The limitation that the "interior volume" be "contractable" is unnecessary.

All errors are being corrected in the present reissue application up to the time of filing of this declaration arose without any deceptive intention on the part of the applicant.
